## HOME-WORK-2

DIPTENDRA NATH BAGCHI

NetId: dbagchi2

- The graph shows when the value of " $n$ " (the size of the array) is small, the theoretical solution that we got in our last home work (i.e. HW1) does not seem to work.
- This also shows as the length of the array ( $n$ ) increases the experimental solution matches / tends toward the theoretical solution.
